

Toddler Art Workshops at Singapore Art Museum

Elements of Art

November 2017 - March 2018

Date	Day	Lesson Description
25 th Nov	Saturday	A major element of art is colors! In our first session of the series, the children will learn about primary and secondary colors. We will read Herve Tullet's book - "Mix It Up" and learn how to mix our own secondary colors, and print shapes using our new colors.
2 nd Dec	Saturday	Shaving cream art! This popular messy play activity is a wonderful sensory experience for children. Mix and explore colors to create some beautiful marbled effect art pieces to take home.
9 th Dec	Saturday	The next few workshops will be about shapes! We will explore stars by reading one of our favourite books, Eric Carle's "Draw Me A Star". The children will learn to make stars out of triangles and play with different sensory embellishments. Following that, we will also be making pipe cleaner star ornaments.
16 th Dec	Saturday	Triangle fun! The children will make and decorate their own 3D xmas tree out of triangle cutouts.
6 th Jan	Saturday	Circles! The children will use round objects such as ballons, plastic eggs, pom poms, as well as adding a sensory element by using citrus fruits to create their circular prints.
13 th Jan	Saturday	Shapes garland! The children will learn about more shapes and decorate their shapes using different embellishments such as feathers, glitter, buttons, fabric etc. These shapes will be stringed up as a garland that they can hang in their room.
3 rd Feb	Saturday	Get creative with homemade scented playdough! The children will put what they have been learning about shapes and colors into practice. They will mix colours and make shapes out of playdough. Each child will also get to take back a set of their own playdough to keep exploring and playing at home.
10 th Feb	Saturday	Straight lines! Have fun creating a unique piece of tape resist art with your little one. Make straight lines using tape and mix your own colors to color the background.
3 rd Mar	Saturday	Art is lines! The children will explore lines by doing marble painting. We will be using marbles to make lots and lots of squiggly and straight lines. A firm favorite among the little ones.
10 th Mar	Saturday	Art is texture! Our last workshop will explore texture as an element of art. We will be doing shape collage using different textured materials. The children can consolidate what they have experienced during the last lesson and create their own collage using different shapes, textures and colors.
